## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 1/27/2005 was considered by the examiner.

### ***Priority***

2. The Priority papers have been received, and entered into the application. A claim for foreign priority has been noted in the Oath/Declaration of October, 2005.

### ***Drawings***

3. The Drawings are accepted as submitted.

### ***Allowable Subject Matter***

4. Claims 1 and 2 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The closest prior art fails to show that the invention is either obvious or lacking novelty. While the German reference Göddert (DE 3603487 C1) would render lines 1-10 of the reference anticipated, it fails to teach the spring configuration of the release of the present application.

Claim 1 lines 1- 20 would be obvious over Göddert in view of Supper (FR 2813033 A1), or alternatively anticipated by Lin (USPN 5,430,941), however neither of the rejections would extend to encompass the entirety of claim 1. The references fail to

teach an axially extending outer portion which provides the longitudinal force to remove the removable blades. There is no teaching seen in the relevant prior art which shows the wide opening of scissors as a means to effect disconnection of the removable blades by force application due to contact. There are instances where the blades are opened for removal, but such removal requires the manual disconnection of one or more components of the scissor- handle coupling, and does not read on or teach towards the removal features of the present invention. Claim 2 is allowed since it is of the correct form and depends directly from an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
